1. DESCRIPTION OF BUSINESS

Antibe Therapeutics Inc. (the “Company” or “Antibe”) was incorporated under the *Business Corporations Act* (Ontario) on May 5, 2009. On June 18, 2013, the Company completed its initial public offering and was listed on the TSX Venture Exchange (“TSXV”). On September 15, 2014, the Company began trading in the United States on the OTCQX Exchange. On October 1, 2017, the Company changed trading platforms to the OTCQB Exchange. On November 12, 2020, the Company completed its graduation to the Toronto Stock Exchange (“TSX”) and the Company’s common shares (the “Common Shares”) began trading on the TSX under the symbol “ATE”. In connection with the Company’s graduation to the TSX, concurrently, the Common Shares were voluntarily delisted from the TSX Venture Exchange. On February 16, 2021, the Company resumed trading on the OTCQX market under the symbol “ATBPF”.

The Company originates, develops and out-licenses new pharmaceuticals. Antibe’s lead compound, otenaproxesul (previously known as OTENAPROXESUL), combines hydrogen sulfide with naproxen, an approved, marketed and off-patent non-steroidal anti-inflammatory drug. The Company’s main objectives are to develop otenaproxesul by satisfying the requirements of the relevant drug regulatory authorities while also satisfying the commercial licensing objectives of prospective global partners. The Company has also established a development plan for its lead compound through to the end of Phase III human clinical studies for regulatory discussion purposes. Additionally, the Company continues to investigate other research projects as well as additional development opportunities.

The Company is also, through its wholly owned subsidiary, Citagenix Inc. (“Citagenix”), a seller of tissue regenerative products servicing the orthopaedic and dental marketplaces. Citagenix’s portfolio consists of branded biologics and medical devices that promote bone regeneration. Citagenix operates in Canada through its direct sales force and in the United States, Germany and internationally via a network of distributors.

The address of the Company’s registered head office and principal place of business is 15 Prince Arthur Avenue, Toronto, Ontario, Canada, M5R 1B2.

The Company was founded with an exclusive intellectual property license from Antibe Holdings Inc. (“AHI”), a related party, to develop and commercialize the Company’s pipeline drugs. The license obligated the Company to pay royalties to AHI on future revenues derived from this intellectual property. On May 7, 2021, the Board of Directors of Antibe and AHI agreed to combine the companies in an amalgamation transaction (see note 4). As of the date of the amalgamation on June 3, 2021, 11.4% of the Company’s common shares were held by the former shareholders of AHI.

These unaudited condensed interim consolidated financial statements were authorized for issuance by the Board of Directors on August 16, 2021.

2. BASIS OF PRESENTATION

(a) Statement of compliance –

These unaudited condensed interim consolidated financial statements were prepared using the same accounting policies and methods as those used in the Company’s audited consolidated financial statements for the year ended March 31, 2021. These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34 (“IAS 34”), *Interim Financial Reporting*. Accordingly, these unaudited condensed interim consolidated financial statements do not include all the disclosures required for annual financial statements and should be read in conjunction with the annual consolidated financial statements of the Company for the year ended March 31, 2021, which are available on SEDAR.

2. BASIS OF PRESENTATION *(continued)*

(b) Consolidation –

These unaudited condensed interim consolidated financial statements include the accounts of the Company and its wholly owned subsidiary, Citagenix. On December 3, 2020, the Company sold its wholly owned subsidiary, BMT Medizintechnik GmbH (“BMT”) (note 3).

Citagenix was acquired on October 15, 2015. It was incorporated under the *Business Corporations Act* (Quebec) on December 8, 1997, and operates in Canada and the US.

All intercompany balances and transactions have been eliminated on consolidation.

For the purposes of effecting a three-cornered amalgamation with AHI, a company incorporated in the province of Alberta, the Company established a wholly owned subsidiary, 2831094 Ontario Inc. On June 2, 2021, AHI and 2831094 Ontario Inc. amalgamated into the resulting entity, Antibe Amalco Inc. (“Amalco”). On June 3, 2021, Amalco was vertically amalgamated into the Company (note 4).

(c) Share consolidation –

On December 1, 2020, the Company completed a share consolidation of the Company’s issued and outstanding common shares on the basis of one (1) new common share for every ten (10) common shares issued and outstanding. All common shares, options, restricted share units (“RSUs”), warrants and per share amounts have been restated to give retrospective effect to the share consolidation.

(d) Going concern –

The unaudited condensed interim consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As at June 30, 2021, the Company had working capital of \$70,539, incurred a net loss for the three months ended June 30, 2021 of \$6,299, had negative cash flows from operations of \$4,938 and an accumulated deficit of \$92,255.

Until such time as the Company’s pharmaceutical products are patented and approved for sale, the Company’s liquidity requirements are dependent on its ability to raise additional capital by selling additional equity, from licensing agreements of its lead compound, from proceeds from the exercise of stock options and common share warrants or by obtaining credit facilities. The Company’s future capital requirements will depend on many factors, including, but not limited to, the market acceptance of its products and services. No assurance can be given that any such additional funding will be available or that, if available, it can be obtained on terms favourable to the Company.

All of the factors above indicate the existence of a material uncertainty that may cast significant doubt about the Company’s ability to continue as a going concern, which assumes the Company will continue its operations for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the ordinary course of business. Management’s plans to address these issues involve actively seeking capital investment and generating revenue and profit from the commercialization of its products. The Company’s ability to continue as a going concern is subject to management’s ability to successfully implement this plan. Failure to implement this plan could have a material adverse effect on the Company’s financial condition and financial performance.

If the going concern assumption were not appropriate for these unaudited condensed interim consolidated financial statements, then adjustments would be necessary to the carrying value of assets and liabilities, the reported revenue and expenses, and the classifications used in the interim consolidated statements of financial position. The unaudited condensed interim consolidated financial statements do not include adjustments that would be necessary if the going concern assumption were not appropriate.

2. BASIS OF PRESENTATION *(continued)*

(e) Business uncertainty –

In December 2019, COVID-19 emerged in Wuhan, China. Since then, it has spread to most other countries and infections have been reported around the world. On March 11, 2020, the World Health Organization declared the outbreak of COVID-19 a global pandemic. In response to the outbreak, governmental authorities in Canada and internationally have introduced various recommendations and measures to try to limit the pandemic, including travel restrictions, border closures, non-essential business closures, quarantines, self-isolation, sheltering-in-place and social distancing. The COVID-19 outbreak and the response of governmental authorities to try to limit it are having a significant impact on the private sector and individuals, including unprecedented business, employment and economic disruptions.

The COVID-19 pandemic has impacted the Company's business to some extent. The Company's Phase 2 trial took an additional six weeks to complete due to factors such as the COVID-19 related closure of medical clinics, doctors becoming ill from COVID-19, and staff working from home, all of which slowed the collation of the trial data. COVID-19 particularly impacted the Company's wholly owned subsidiary, Citagenix, by causing a significant decrease in sales due to a decline in customer demand in fiscal Q1 2020. COVID-19 could further impact the Company's expected timelines, operations and the operations of its third-party suppliers, manufacturers, and Contract Research Organizations as a result of quarantines, facility closures, travel and logistics restrictions and other limitations in connection with the outbreak. The most significant risk posed by the COVID-19 pandemic is that it could also significantly impact the progress and completion of the clinical trials.

Whatever further impact, if any, the COVID-19 pandemic may have on the Company is unpredictable. The continued spread of COVID-19 nationally and globally could also lead to a deterioration of general economic conditions including a possible national or global recession. Due to the speed with which the COVID-19 situation is developing and the uncertainty of its magnitude, outcome and duration, it is not possible to estimate its impact on the Company's business, operations or financial results; however, the impact could be material.

(f) Use of estimates –

The preparation of these unaudited condensed interim consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities, if any, as at the date of the unaudited condensed interim consolidated financial statements, and the reported amount of expenses during the reporting period. Actual results may vary from the current estimates. These estimates are reviewed periodically and, as adjustments become necessary, they are reported in income in the period in which such adjustments become known. Significant estimates in these unaudited condensed interim consolidated financial statements include determination of eligible expenditures for investment tax credit purposes, estimation of inventory reserves, impairment of intangible assets, credit losses, R&D expenses and accruals and inputs related to the calculation of fair value of stock-based compensation and warrants.

(g) Comparative figures –

Certain reclassifications of amounts in fiscal 2021 have been made to facilitate comparison with the current year.

3. SALE OF BMT

On December 3, 2020, the Company completed the sale of 100% of the shares of its wholly owned subsidiary, BMT, for cash consideration of €1 (one Euro).

The business of BMT was historically presented within the Citagenix operating segment. With BMT classified as a discontinued operation, the Citagenix segment will no longer include BMT results.

The results of BMT are presented in the interim consolidated statement of loss and comprehensive loss as a loss from discontinued operations for the three months ended June 30, 2020.

The results of BMT for the three months ended 2020 are presented below.

	2020
	<u>\$</u>
Revenue	124
Cost of goods sold	<u>25</u>
Gross profit	<u>99</u>
Expenses	<u>117</u>
Loss from discontinued operations	<u>(18)</u>

Cash flows from operations incurred by BMT for the three months ended June 30, 2020, were negative \$106 and are presented within the Company's interim consolidated statements of cash flows.

4. AMALGAMATION WITH RELATED PARTY

On May 7, 2021, the Company announced that the Boards of Directors of Antibe and AHI agreed to combine the companies in an amalgamation transaction pursuant to which shareholders of AHI would receive common shares of the Company in exchange for their shares of AHI. This related party transaction closed on June 3, 2021.

The license obligated the Company to pay royalties to AHI on future revenues derived from this IP. Under the terms of the agreement, the Company acquired full ownership of AHI's patent portfolio, eliminating the royalty liability on future revenues. The companies were combined in a three-cornered amalgamation transaction pursuant to which AHI amalgamated with a newly incorporated subsidiary of the Company.

On June 3, 2021, the Company issued an aggregate of 5,873,092 Common Shares for a total consideration of \$25,980, to acquire all of the issued and outstanding shares of AHI, following which AHI ceased to exist. The amalgamation was accounted for as an acquisition of the underlying assets of AHI.

The fair value of the assets acquired include \$26,051 in intangible assets related to intellectual property, \$65 in cash, net of amounts owed to Antibe for advances made in the quarter prior to the amalgamation, \$28 in other assets, \$130 in income taxes payable and \$34 in other current liabilities. The fair value of the intellectual property was determined based on the relief from royalty method. The Company has also capitalized \$301 of costs directly related to the amalgamation to the intellectual property acquired, \$272 of which was paid as at June 30, 2021. The intellectual property acquired is not yet subject to amortization as it is classified as not yet available for use in accordance with the Company's accounting policies.

These new shares account for approximately 11.4% of the ownership of Antibe on a post-transaction basis. Shares issued to Company insiders, who collectively owned approximately 37.5% of the outstanding shares of AHI, are subject to lock-up agreements, with half of them to be released 120 days after closing and the balance to be released 240 days after closing.

6. CREDIT FACILITY INDEBTEDNESS

On June 29, 2018, Citagenix replaced its bank operating line facility with a \$2.25 million secured revolving credit facility (the "Credit Facility") provided by Bloom Burton Healthcare Lending Trust ("BBHLT"). Amounts outstanding under the Credit Facility bear interest at a rate of 7% compounded monthly, payable quarterly.

On June 29, 2020, the maturity date of the BBHLT Credit Facility, the Company paid in full the principal amount of \$2,250, plus outstanding interest of \$40.

7. SHARE CAPITAL (continued)

On June 3, 2021, the Company completed a three-cornered amalgamation transaction with AHI. In consideration, the Company issued an aggregate of 5,873,092 Common Shares (see note 4).

The following provides additional information on the prospectus raise completed during the three months ended June 30, 2020:

Closing date	Prospectus	Number of units / shares issued	Number of warrants issued	Price per unit	Gross proceeds ²	Warrant exercise price	Warrant expiry date
				\$	\$	\$	
Jun. 30, 2020	P2020	7,187,500 ¹	2,395,833	4.00	28,750	6.00	Jun. 30, 2022

¹Each unit was composed of one Common Share and one-third of one common share purchase warrant. Each whole warrant entitles the holder to purchase one common share.

²Gross proceeds have been allocated to share capital and warrants based on the residual method. Warrants were valued using the Black-Scholes-Merton option pricing model ("BSM").

With respect to the prospectus raise completed during the three months ended June 30, 2020, the Company issued the following warrants to brokers:

Closing date	Prospectus	Number of broker warrants issued	Total issuance costs	Non-cash cost from issuance of warrants to brokers	Broker warrant exercise price	Broker warrant expiry date
			\$	\$	\$	
Jun. 30, 2020	P2020	503,125	2,131	821	4.00	Jun. 30, 2022

All issuance costs were offset against share capital and common share purchase warrants in proportion to the allocation of proceeds.

The following is a summary of all warrants exercised during the three months ended June 30, 2021 and 2020:

Exercise price	2021		2020

Total finance and related costs	28	(9)

15. CAPITAL RISK MANAGEMENT

The Company's primary objective with respect to its capital management is to ensure that it has sufficient cash resources to fund the research, development and patent of drugs and the growth objectives of Citagenix. To secure the additional capital necessary to pursue these plans, the Company may attempt to raise additional funds through the issuance of equity.

The Company includes the following in its definition of capital: share capital, common share purchase warrants, contributed surplus and accumulated deficit, which, for the three months ended June 30, 2021, total \$71,729 (March 31, 2021 – \$50,264). The Company is not subject to externally imposed capital requirements.

16. FINANCIAL RISK MANAGEMENT

The Company is exposed to a variety of financial risks by virtue of its activities: credit risk, liquidity risk, foreign currency risk and interest rate risk. The overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on financial performance.

Risk management is carried out by the officers of the Company as discussed with the Board of Directors. The officers of the Company are charged with the responsibility of establishing controls and procedures to ensure that financial risks are mitigated in accordance with the expectation of the Board of Directors as follows:

ANTIBE THERAPEUTICS INC.**Notes to the Condensed Interim Consolidated Financial Statements****For the Three Months Ended June 30, 2021 and 2020**

(Expressed in thousands of Canadian Dollars, except per share amounts and where noted)

(Unaudited)

16. FINANCIAL RISK MANAGEMENT (continued)**Credit risk**

The Company's credit risk is primarily attributable to trade and other receivables and the excess of cash held in one financial institution over the deposit insurance by Canadian Deposit Insurance Corporation. The Company, in the normal course of operations, monitors the financial condition of its customers.

The Company establishes an allowance for doubtful accounts that corresponds to the specific credit risk of its customers, historical trends and economic conditions.

Liquidity risk

Liquidity risk is the risk that the Company is not able to meet its financial obligations as they become due or can do so only at excessive cost. The Company manages its liquidity risk by forecasting cash flows and anticipated investing and financing activities. Officers of the Company are actively involved in the review and approval of planned expenditures, including actively seeking capital investment and generating revenue and profit from the commercialization of its products (see note 2(d)).

As at June 30, 2021, the Company's financial obligations, including applicable interest, are due as follows:

	Less than 1 year	1 – 2 years	After 2 years	Total
	\$	\$	\$	\$
Accounts payable and accrued liabilities	3,162	-	-	3,162
Income tax payable	130	-	-	130
Lease liability	134	71	-	205
	3,426	71	-	3,497

Foreign currency risk

The functional and reporting currency of the Company is the Canadian dollar. The Company undertakes transactions denominated in foreign currencies, including US dollars and euros, and, as such, is exposed to currency risk due to fluctuations in foreign exchange rates against the Canadian dollar. The Company does not use derivative instruments to reduce exposure to foreign currency risk.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Financial assets and financial liabilities with variable interest rates expose the Company to cash flow interest rate risk.

17. DEFERRED REVENUE

On February 24, 2017, Antibe entered into an exclusive long-term license and distribution agreement ("License Agreement 1") with Laboratoires Acbel SA ("Acbel") for otenaproxesul in Albania, Algeria, Bulgaria, Greece, Jordan, Romania and Serbia (the "Territory"). Acbel is an affiliated holding company of Galenica SA in Greece. Under the terms of License Agreement 1, Antibe was issued an upfront payment of €800 (CAD\$1,142) and is entitled to receive a 5% royalty on net sales of otenaproxesul in the Territory. The upfront revenue is reflected in deferred revenue until the point that Acbel can benefit from the license.

17. DEFERRED REVENUE *(continued)*

On September 4, 2018, Antibe entered into an exclusive licensing agreement (“License Agreement 2”) with Kwangdong Pharmaceutical Co., Ltd (“Kwangdong”) for the development and commercialization of otenaproxesul in the Republic of Korea (“Region”). Under the terms of License Agreement 2, Antibe was issued an upfront payment of US\$1,000 (CAD\$1,316), which is reflected in deferred revenue until the point that Kwangdong can benefit from the license. Under the terms of License Agreement 2, Antibe will be entitled to receive US\$9 million in milestone payments. Fees paid to an agent used in obtaining License Agreement 2 have been recorded as deferred contract costs on the consolidated statement of financial position in the amount of \$236 as at June 30, 2021.

On February 9, 2021, Antibe entered into an exclusive licensing agreement (“License Agreement 3”) with Nuance Pharma (“Nuance”) for the development and commercialization of otenaproxesul in the Greater China region. The license provides Nuance with exclusive rights to commercialize otenaproxesul in China, Hong Kong, Macau, and Taiwan (the “Sector”). Under the terms of the agreement, Antibe was issued an upfront payment of US\$20 million (CAD\$25,231), which is reflected in deferred revenue until the point at which Nuance can benefit from the license. Additionally, Antibe will receive a double-digit royalty on net sales in the Sector and is entitled to receive US\$80 million in development and sales milestones. Fees paid to an agent used in obtaining License Agreement 3 have been recorded as deferred contract costs on the consolidated statement of financial position in the amount of \$1,047 as at June 30, 2021.

The amount of the upfront payments for all licenses is included on the consolidated statements of financial position as deferred revenue and will be recorded through the consolidated statements of loss and comprehensive loss at the same point when the license revenue is recognized.

18. COMMITMENTS AND CONTINGENCIES

(a) Royalty and milestone commitment

On December 22, 2009, the Company entered into a License Agreement with AHI that provided for the exclusive right and license to research, develop and commercialize various patents. Pursuant to the agreement, the Company paid an upfront non-refundable license fee of \$150 to obtain exclusive right to the patents. The agreement required the Company to pay royalties of 4% of all net sales upon the first commercial sale or, if the Company sublicenses the patents, the Company would pay a 15% royalty on royalty revenue earned. Additionally, the Company was required to make milestone payments to AHI at various stages of development.

On June 3, 2021, the Company completed an amalgamation with AHI whereby the Company issued 5,873,092 Antibe common shares to AHI’s shareholders and the Company obtained all the assets and liabilities of AHI, effectively ending this License Agreement (note 4).

(b) Royalty agreement

On November 16, 2015, the Company announced the signing of an exclusive long-term license and distribution agreement with Knight Therapeutics Inc. (“Knight”), a leading Canadian specialty pharmaceutical company, for the Company’s anti-inflammatory and pain drugs, otenaproxesul, ATB-352 and ATB-340, as well as the rights to other, future prescription drugs. Under the terms of the license agreement, the Company has granted Knight the exclusive commercial rights for the Company’s drug candidates and other future prescription drugs in Canada, Israel, Russia and sub-Saharan Africa. The Company is entitled to royalties on annual sales, along with the potential for \$10 million in payments for sales-based milestones.

The Company received no royalties from Knight in the three months ended June 30, 2021.
